*Green Expert Technology wins tasking to support U. S. Navy Waterjet system engineering and testing*

**Philadelphia, PA, July 17, 2017:** Green Expert Technology Inc. (GreenXT) today announced that it has received tasking to provide engineering support and services to Naval Surface Warfare Center Philadelphia Division (NSWCPD) for waterjet In-Service Engineering Activity. GreenXT engineers will provide Support to the LCS Ship Class program for new construction and In-service engineering. GreenXT will provide support for development, review, and ship check of alteration packages for the systems. GreenXT will perform shipboard configuration audits for waterjet equipment, conduct system testing, and provide training to shipboard and other maintenance personnel.

"We are excited to expand our support of the U. S. Navy and the LCS ship class out of our Philadelphia office," said Brian Trees, Senior Vice President of GreenXT.
