Green Expert Technology wins a 5 year, multi-million dollar prime contract in support of Machinery Controls Systems on Navy surface ships.

Haddonfield, NJ September 21, 2018: Green Expert Technology (GreenXT) has been awarded a 5-year, \$10M prime contract with Naval Surface Warfare Center Philadelphia Division (NSWCPD). This requirement is for Machinery Control Systems on LCS-1&2, SSC, & INLS Classes of Navy surface ships. They will continue support of software development and lifecycle engineering of the control system computer programs, both shipboard and at Land Based Engineering site. This contract positions GreenXT for more efficient and technical support of the U. S. Navy. "This contract award is the result of years of dedicated service by our employees in support of NSWCPD. It enables us to better team with our Navy customers and improve the shipboard systems onboard both variants of Littoral Combatant Ships," remarked Bruce Green, President of GreenXT.

About GreenXT
